The names of CFP professionals who have been found to have violated the [FP Canada Standards Council Standards of Professional Responsibility](#) shall be published on FP Canada's website.

## 4.3. Continuing Education Requirements

CFP professionals have an obligation to ensure their knowledge and competence in their field remains current. To renew certification, CFP professionals must complete 25 hours of CE annually as outlined in the table below.

### 4.3.1. ANNUAL CONTINUING EDUCATION REQUIREMENTS

VERIFIABLE CREDITS REQUIRED (JANUARY 1 TO DECEMBER 31)			
Breakdown by Category	Minimum Annual Credits	Maximum Annual Credits	Carry-Over Permitted to Next Calendar Year
Financial Planning	10	Unlimited	25
Professional Responsibility	2 *	Unlimited	No **
Practice Management	No minimum	5	No

Product Knowledge	No minimum	5	No
Giving Back	No minimum	5	No

\* Effective January 2020, CFP professionals must complete 2 hours of CE in the category of Professional Responsibility annually (a change from the previous 1-hour annual requirement)

\*\* If more than 2 credits in Professional Responsibility are obtained, the additional credit(s) may be applied under the Financial Planning category.

#### 4.3.2. CE CREDIT CATEGORIES

FP Canada’s CE requirements go beyond maintaining technical competence. They are designed to support the maintenance and ongoing professional development required to continue meeting client needs. CE requirements include the following five categories.

##### Financial Planning

Qualifying CE must be related to one or more aspects of the [FP Canada Standards Council Competency Profile](#), which serves as the foundation of certification requirements leading to CFP certification. CE in this category may relate to one or more of the financial planning areas, professional skills and technical knowledge.

##### Professional Responsibility

The Professional Responsibility requirement is designed to support and enhance your understanding of your professional duties and to provide approaches for identifying and addressing common ethical dilemmas and challenges that you may face. Qualifying CE requires practical application of the principles and rules in the FP Canada Standards Council Standards of Professional Responsibility to ethical dilemmas that financial planners commonly encounter. CE should include the use of scenarios and/or practical examples to illustrate the situations. CE activities that focus on direct knowledge or rote recall of the Standards of Professional Responsibility without demonstrated understanding and application will not qualify.

##### Examples of Qualifying CE:

In-person workshop where participants review examples of ethical dilemmas that financial planners may encounter and how the Standards of Professional Responsibility may apply.

Online, self-directed course where learners are asked to consider ethical dilemmas that financial planners may encounter and are asked to contemplate, through interactive online activities or assessment, how the Standards of Professional Responsibility may apply.

##### Examples of Non-Qualifying CE:

In-person workshop that provides an update on the regulatory environment and outlines mutual fund and securities regulation for advisors but does not apply the Standards of Professional Responsibility to examples or scenarios of ethical dilemmas.

Online, self-directed course that presents and explains the Standards of Professional Responsibility but does not apply the principles or rules to examples or scenarios of ethical dilemmas that financial planners may encounter.

## Practice Management

Qualifying CE includes the knowledge and skills used in building professional relationships and growing a professional practice. CE in this category may include activities focused on prospecting, business planning, business development, networking or sales skills.

## Product Knowledge

Qualifying CE includes the product knowledge that planners may use to advise on and sell products or comment on products held by their clients. CE in this category may be focused on any financial planning product, including investment, insurance or debt. Ideally, CE should present a balanced view of the product that includes features and benefits as well as client suitability, risks and costs. The content of CE should help certificants make product recommendations based on the fit of the product with their client's situation rather than on the product's returns.

## Giving Back

Qualifying CE includes volunteering with FP Canada, community organizations, industry associations or charitable groups in a way that helps Canadians understand the importance of financial planning and/or enhances their financial well-being.

CE in this category may include involvement in pro bono teaching or development of education programs, community involvement, development of published financial planning research, or involvement in financial planning-related committees, task forces or focus groups.

### 4.3.3. GUIDELINES FOR CALCULATING CE CREDITS

FP Canada's CE Approval Program provides automatic confirmation that a course or program meets FP Canada's requirement for verifiable CE credits and validates the number of eligible verifiable CE credits for each CE category (Financial Planning, Practice Management, Product Knowledge or Professional Responsibility).

Refer to [FP Canada's Meeting Your CE Requirements](#) web page for more information on the benefits of using the FP Canada-Approved CE search tool and steps for certificants to follow when pursuing other CE opportunities.

#### 4.3.3.1. General Guidance

- a. CE credits are accumulated on a calendar year basis (January 1 to December 31).
- b. To qualify, the content of the activity must be related to the categories of Financial Planning, Professional Responsibility, Practice Management, Product Knowledge or Giving Back.
- c. One hour of qualifying activity is equivalent to one CE credit.
- d. A full day of instruction may qualify for a maximum of eight CE credits. Time spent for meal and coffee breaks must be subtracted from the total hours claimed for CE credits.
- e. Excess CE credits in the category of Professional Responsibility may qualify under the category of Financial Planning.
- f. Excess CE credits may not be carried over for more than one calendar year.

#### **4.3.3.2. Guidance for Calculating CE Credits for Common CE Activities**

In-house training can be claimed for CE credits (one hour = one CE credit). When calculating CE credits, time spent for meals and breaks may not be included. The maximum amount allocated for one full day of training is eight CE credits.

##### **Self-Study/Online Courses with an Exam**

Self-study courses usually have a recommended number of study hours. The full number of study hours may be claimed as CE (if they meet FP Canada's CE requirements) upon successful completion of the course, up to a maximum of 50 credits.

##### **College/University Courses**

University or college credit courses for one full semester may qualify for CE credits, if the curriculum meets FP Canada's CE requirements. A maximum of 50 CE credits may be claimed for each full semester course.

##### **Prep Courses**

Courses that are completed to prepare for a relevant professional license or designation may qualify for CE upon completion, up to a maximum of 50 credits.

##### **Writing**

A maximum of 15 CE credits may be claimed for the time spent researching and writing. Re-releases of existing documents with revision are eligible for a maximum of 10 CE credits.

Please note that content written for marketing purposes will not qualify for CE credits.

##### **Teaching/Presenting**

Teaching or acting as an instructor, discussion leader or speaker to financial planning professionals or post-secondary students qualifies for a maximum of 15 CE credits. Two credits per hour of actual teaching/presenting time can be claimed for the first time the class or session is conducted, up to a maximum of 15 credits. For second and subsequent offerings of the same course or session, only in-class time or session time can be counted, up to a maximum of 10 credits per year.

Please note that teaching or presenting seminars/courses designed for marketing purposes will not qualify for CE credits.

##### **Volunteer Service**

CE credits may be awarded for volunteering with FP Canada, community organizations, industry associations, charitable groups or others in a way that assists Canadians in understanding the importance of financial planning or enhances their financial well-being. In addition, CE credits may be awarded in instances where a CFP professional is using their financial planning skills in a volunteer capacity to support an organization. Hours of volunteer service may qualify for a maximum of five credits per year under the 'Giving Back' category.

### **Other Educational Activities**

Other activities may qualify for CE credits, at FP Canada's sole discretion.

#### **4.3.4. SUPPORTING DOCUMENTATION FOR CE CREDITS**

CFP professionals subject to audit must demonstrate compliance by providing supporting documentation to confirm the completion of their CE requirements.

Supporting documentation may include a:

- Certificate of attendance issued by the granting institution. The certificate must include the participant's name, the date of the activity, the name of activity and a signature and/or stamp of education provider;

##### **4.3.4.1. Supporting Documentation for Non-FP Canada Approved CE Credits**

Supporting documentation for educational content of CE activities that have not been approved through FP Canada's CE Approval Program must also be supported by documentation to verify the educational content of the activities completed. Supporting documentation could include, but is not limited to, the following:

- Course descriptions;
- Content agendas indicating the duration of the program and summary of the content;

- PowerPoint presentations;
- Course syllabi;
- Table of contents; or
- Articles.

Other forms of supporting documentation may be accepted at the discretion of staff.

Please note that missing documentation will result in the CE activity being denied in the case of an FP Canada audit.

#### 4.3.5. RECOGNITION OF THE FP CANADA INSTITUTE’S PROFESSIONAL EDUCATION PROGRAMS

To recognize the extent of and currency of learning resulting from successful completion of a Professional Education Program, CFP professionals are exempt from CE requirements in all categories, including the category of Professional Responsibility:

- in the year they pass the CFP exam; and
- additional consecutive calendar years as follows:

CERTIFICATION PATH	CE EXEMPTION*	IN RECOGNITION OF SUCCESSFUL COMPLETION OF:
Direct Path to CFP Certification	2 years	CFP Professional Education Program
QAFP Bridge Path to CFP Certification	2 years	QAFP Professional Education Program and QAFP-to-CFP Certification Bridge Program  OR  CFP Professional Education Program
Relevant Professional Qualifications Path to CFP Certification	2 years	CFP Professional Education Program
Pl. Fin. Path to CFP Certification	N/A	N/A
Foreign CFP Professional Path to CFP Certification	2 years	CFP Professional Education Program

\* Candidates who do not obtain certification within two calendar years following the year they pass the CFP examination are not eligible for this CE exemption.

#### **4.3.6. REPORTING CE ACTIVITIES**

CFP professionals are required to attest to the completion of their CE requirements for the calendar year specified on the annual renewal application.

CFP professionals are not required to submit CE supporting documentation at time of certification renewal but must have supporting documentation available in the event of an FP Canada audit. Any excess credits carried over from the previous year may also be subject to audit. It is recommended that CFP professionals keep all CE supporting documentation for at least three years.

FP Canada offers an online tool to track completed CE credits. This online tool must be used by those who are selected for audit. The online CE Tracker tool can be found on the [FP Canada Portal](#), under the 'My Account' tab.

#### **4.3.7. CE AUDIT REQUIREMENTS**

To maintain the integrity of the CFP certification, a percentage of CFP professionals are selected randomly for CE audit each year. Individuals who are selected for audit will be requested to submit supporting documentation for their CE credits taken in the previous calendar year. CFP professionals whose certification has lapsed and then been reinstated are automatically subject to audit.

Individuals who are found to have falsified their CE attestation are in breach of the FP Canada Standards Council Code of Ethics, as outlined in the [FP Canada Standards Council Standards of Professional Responsibility](#). These cases are forwarded to FP Canada's Enforcement department for further action under the FP Canada Standards Council Disciplinary Rules and Procedures.

FP Canada reserves the right to audit any CFP professional at any time and for any reason.

##### **4.3.7.1. Failure to Comply with CE and/or CE Audit Requirements**

CFP professionals who fail to comply with the CE requirements or CE audit requirements within the stipulated period may be subject to disciplinary action by FP Canada.

Misstated or fraudulent reporting of CE credits will be reported to the FP Canada Standards and Enforcement department as a violation of the [FP Canada Standards Council Standards of Professional Responsibility](#)

#### **4.3.8. CONTINUING EDUCATION EXEMPTIONS**

CFP professionals may request an exemption from CE requirements for the calendar year in which they take a leave of absence from employment/practice in the event of a pregnancy/parental or medical leave.

Any other requests for CE exemption will be considered on a case-by-case basis.

##### **4.3.8.1. Pregnancy/Parental leave**

CFP professionals will be exempt from the annual CE requirement for the calendar year coinciding with the birth/adoption of a child. Upon request, the exemption of the annual CE requirement may be split evenly across two consecutive years. A CE Exemption Request Form must be submitted to FP Canada with a copy of the child's birth certificate and/or adoption papers.

The CE exemption for pregnancy/parental leave is limited to one calendar year, even though CFP professionals may choose to take an extended leave to care for their child. In the event of subsequent births/adoptions, a separate [CE Exemption Request Form](#) must be submitted with the birth certificate and/or adoption papers for each child.

#### **4.3.8.2. Medical leave**

CFP professionals will be exempt from the annual CE requirement in the calendar year coinciding with an approved medical/disability leave of at least six months. A [CE Exemption Request Form](#) must be submitted to FP Canada with a current medical report and/or doctor's note.

If a CE exemption is required for consecutive years, CFP professionals must re-apply for the CE exemption annually and provide an up-to-date medical report and/or doctor's note that explains the reason for the extended medical/disability leave. Consecutive CE exemptions will be considered on a case-by-case basis.
